Back to the Future for Your Exciting Career Choice

Our fabric products have been used within Australia since the very first days of settlement. Whether it was the canvas sails on the First Fleet, or the tents and covers used to shelter the people, supplies and their prized possessions from the elements, the Specialised Textile Industry has grown into one of the most diverse and progressive industries in Australia. In our modern day industry our fabricating members are creating and providing solutions for many applications including, but not limited to:

- Shade sails for residential, commercial and schools
- Architectural fabric structures
- Window blinds and awnings
- Marine and auto trimming
- Agricultural and horticultural solutions
- Defence and military applications
- 4Wd offroad adventure camper trailers
- Caravan covers and annexes
- Transport seat covers and canopies
- Major events marquees
- Childcare soft play
- Health care fabric
- Advertising and promotional signage
- Gymnastics and sporting goods
- Mining fabric applications
- Liquid and waste storage solutions
- Upholstering and outdoor furniture
- Truck Side Curtains and Roll Top Tarps

Apprentices joining our industry will learn a wide range of business skills, including:

- Project management
- Computer Aided Design and production
- Problem solving challenges
- Engaging with staff, customers and suppliers
- Opportunities for Industry Awards and Apprentice of the Year
- Finance and project costing
- Design, manufacture and installation techniques
- TAFE Trade Qualification: Cert III - Manufactured Textile Products MST30216
